

Kapil Jaiswal

Software Developer | Result-Oriented and Problem Solver

kapiljaiswal82@gmail.com | +91 7999137568

EDUCATION

MAHARISHI INSTITUE

Master of Computer

Applications

JULY 2019 | Bhopal, MP

BSSS Bhopal

Bachelor of Commerce

(Computers)

MAY 2016 | Bhopal, MP

SKILLS

PROGRAMMING | FRAMEWORKS

- Java/J2EE
- Spring Boot
- Spring Data-JPA
- Spring Security
- Spring MVC
- Log4J/SLF4J
- XML
- Json
- Design patterns
- JWT
- Micro Services
- Rest API

DATABASE

- MongoDB •Oracle
- MySQL •Postgres

VERSION CONTROL | PROJECT MANAGEMENT

- GIT •Maven •NPM •JIRA
- Bit Bucket •GCP
- Firebase

TOOLS |IDE

- Eclipse •STS •IntelliJ
- Postman •Swagger
- VS Code • Source tree

SUMMARY

- Total experience of **4+** years as a Software developer.
- Project implementation skills using Spring Framework with Java 8 features, JPA, JWT, React Js, Rest API, and Spring Boot.
- Excellent Knowledge of OOPs concepts, Collection frameworks, Data Structures, Spring Boot, JPA, JWT, Maven and GIT.
- Excellent Debugging skills with experience in Chrome Dev Tools, Visual Studio Code, IntelliJ, and Eclipse.
- Excellent knowledge of the Spring application framework And Postman API Tools.
- Good knowledge in all the phases of Software Development Life Cycle (SDLC) Software Design.
- Have an excellent testing experience with selenium, j-unit, WinAppDriver, and Inspect tools for Desktop Apps.
- Having Experience developing a detailed project plan covering scope, timeline, milestones, and resource allocation to guide the team throughout development.
- Implemented a robust process for code review and thorough testing to ensure code quality and identify bugs using tools such as SonarQube and Lint.

EXPERIENCE

VIZAG INC

- **SOFTWARE ENGINEER** Jan 2020 – Feb 2021 | Vizag, AP
Played a pivotal role in developing a React website project at Vensaii. Assisted in crafting a comprehensive project plan, defining scope, timelines, and resource allocation. Contributed to design, frontend development using React, and ensuring code quality. while also contributing to the Sankranti project, utilizing Spring Boot for backend development. Facilitated clear communication, supported testing, bug resolution, and successful deployment for both projects.

BRIQ

- **SOFTWARE ENGINEER** Feb 2021 - Present | Pune, MH
Contributed to process optimization and project enhancements at Briq, integrating OCR, TOTP Authentication, video recording, database management, and REST APIs. Ensured seamless integration and functionality improvements through collaborative teamwork.
- **SENIOR SOFTWARE ENGINEER** Dec 2023 - Present | Pune, MH
Promoted to Senior Software Engineer, tasked with managing a support team. Led initiatives to upgrade projects and streamline processes, resulting in significant efficiency gains. Recognized for leadership and successful appraisal as a senior developer.

STRENGTH

- Effective planning and communication skills.
- Strong collaboration and teamwork abilities.
- Track record of on-time project delivery.
- Commitment to quality assurance and bug-free solutions.
- Adaptability to changing project requirements.
- Continuous improvement mindset.

PROJECTS

- **Sankranti Spice Rack** | Backend Development
Application for restaurant vendors to order mixes. Admin can manage orders, inventory, and user profiles using a microservices architecture.
- **Sunwaso Delivery App** | Backend Development
This multifaceted solution seamlessly connects users with a wide array of local vendors, ensuring convenient access to essential goods.
- **Vensaii Website** | React and Java Developer
implementation of interactive interfaces and backend logic for the Vensaii website project. incorporating design patterns to facilitate code reuse and maintainability.
- **Briq-Bot** | Software Developer
Integration of Java bots to read and write data in client ERPs using ipaengine tools which is a Service-Oriented Architecture of briq.
- **Briq-Ipaengine** | Software Developer
Integrate OCR, enable TOTP Authentication, implement video recording, manage data with databases, and communicate via REST APIs for a comprehensive bot-related process.

ACHIEVEMENTS

- Created a Big Query JSON Extract Bot at BRIQ, cutting manual data processing time by 40%.
- Implemented a video recording feature during automation runs, resulting in a 20% improvement in the quality of automated tests and reducing debugging time by 25%
- Implemented TOTP-based login in Automation Bots, enabling acceptance of 10% of previously removed automations.
- Assistant Lead on the frontend React project at Vensaii, contributing to its one-week accelerated completion on Web Development.
- Served as Assistant Lead for a frontend React project at Vensaii, contributing to its accelerated completion within one week, thereby showcasing leadership abilities and project management skills.
- Collaborated with cross-functional teams at Vensaii to optimize the performance of React website projects, ensuring seamless user experiences and timely delivery of high-quality solutions.
- Served as Assistant Lead for a frontend React project at Vensaii, contributing to its accelerated completion within one week, thereby showcasing leadership abilities and project management skills.
- Collaborated with cross-functional teams at Vensaii to optimize the performance of React website projects, ensuring seamless user experiences and timely delivery of high-quality solutions.

DECLARATION

I solemnly declare that the information in this resume is true to the best of my knowledge and belief.
